## We Have News for You!

**Cuyahoga Valley Career Center  
Site of Comp Clinic 2009**

The Competition Clinic returns in 2009, but it's like no other Clinic you've seen!

We have included the traditional classes on engines, brakes, suspension (and more!) but our new location has opened the door for some exciting additions. The Clinic will be held at the Cuyahoga Valley Career Center in Brecksville, Ohio.

This location features state-of-the-art electronic media. For the first time we have a great commons area for displays & dining.

We want to get the student body involved by presenting a Street Smarts Safe Driving Program.

The CVCC has an active Auto Tech program and the Auto Tech lab will be available for student oriented demonstrations and hands-on classes.

### Primary Focus

A series of classroom sessions aimed at the racer and the soon-to-be racer. Traditional subjects will include suspension, brakes, tires, data acquisition, car preparation, Solo events, road racing and more.

- Display space available in the spacious Exhibition Hall/Commons Area
- Noon meal and keynote address will take place in the same space.
- Four learning tracks—four classrooms

### Secondary Focus

We will involve the student body and the community in a series of seminars on car control & safe driving.

- Street Smarts Safe Driving program for students.
- The students will have an opportunity to enter a drawing to win a chance to run their car on the Back Street Performance Dynojet dynamometer located at the event!

**You will want to be a part  
of this exciting event!**
