

STUPIDFASTTIRES.com

YOUR SOURCE FOR COMPETITION TIRES

Authorized Dealer For

Trackside Mounting & Balancing-Have you ever ordered race tires and tried to take them to the local tire shop for mounting? Does your local tire mounting professional cringe and roll their eyes when you roll up with your wheels and tires? Have you ever felt like you were robbed when your local shop hands you the bill? If you answered yes to any of these, then turn to us for all of your tire mounting and balancing needs. We use the latest state-of-the-art equipment to prevent damage to your wheels and tires and to make your car roll smoothly when you're banging off the rev-limiter and screaming down the track. Buy your tires from us or hand-carry them to the track and we will take care of you. There's no need to remove your valve cores, tape weights, or clean your wheels before you drop them off. You're busy enough as it is getting ready to race. Just drop off your tires and wheels and we will take care of the rest.

Purging and Nitrogen Fill- For those racers that want to take it to the next level, we offer Purging and Nitrogen Fill. We don't simply remove the valve core and fill the tire with nitrogen. We actually apply vacuum pressure to your mounted tires in order to evacuate the humidity within the tire. We then fill the tire with nitrogen that is passed through a desiccant. This insures that the humidity is kept to a minimum, which means your tire pressure growth on the track will be more consistent and predictable. We go as far as using a humidity gauge to verify our work so that you can worry about other things.

Schedule/hours- Sat 7:30-6:00 & Sun 7:30-4:00 (Pre-order cut off is 1 week prior to event!)
